Purpose

The RCC Triple P Project foresees conducting familiarization trips (FAM trips) for regional and international tour operators, travel agencies, media and bloggers to promote the attractions of traveling as adventure visitor in the WB economies, and in particular the ski touring programmes.

The RCC Triple P staff, in coordination with the contractor(s), will organise 2 (two) Adventure Travel Familiarization Tours – **Via Dinarica cross-border ski touring week in Western Balkan** in the period from **15 February to 15 March 2020** in **3+ economies** in the Western Balkans, to include Albania, Bosnia and Herzegovina, Kosovo*, Montenegro and Republic of North Macedonia.

The FAM trips are to be attended by key international travel media and tour operators and to be used to promote the new regional adventure tourism offer.

The purpose of this assignment is to provide assistance to the RCC Triple P Tourism in SEE project team and the tourism industry of the Western Balkans Six in implementation of the FAM trips in accordance with the new ski touring and winter sports programmes designed for promoting adventure tourism in the WB economies.

The Call has two LOTs. Applications may be submitted for either Lot1 or Lot2 or both Lots.

LOT 1: Implementation of FAM tours for ***Ski touring in cross-border areas of Bosnia and Herzegovina – Montenegro – Kosovo****;

LOT2: Implementation of FAM tours for ***Ski touring in cross-border areas of North Macedonia – Albania – Kosovo****;

The FAM tours aim to:

- increase awareness of the region as adventure destination through product awareness and update, and in particular as the ski touring destination;
- create a mutually beneficial business relationship between the wholesalers, agents and other travel operators;
- build confidence among the regional and international agents in selling the WB region as adventure destination.

Background information

Tourism is one of the priority sectors of the SEE 2020 Strategy, with its significant potential for regional cooperation as direct and indirect contributor to the employment, export and GDP growth. However, due to many challenges, such as sector fragmentation, underdeveloped infrastructure, burdensome administrative procedures, lack of diversified market offer, etc., the industry has still not reached its full potential. To mitigate this SEE economies have agreed to prioritise tourism and address those challenges through joint, regional action.

* "This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence."

RCC's Triple P Tourism Project, a three-year initiative funded by the EU, focuses on the 6 IPA II beneficiaries in the Western Balkans. The project aims to improve the quality of the tourism offer by: creating joint offer/product(s) to foster regional integration in the tourism sector and its joint global promotion while diversifying tourism offer of the region; alleviating policy barriers to development of tourism industry and easing of administrative procedures; improving the level of services related to tourism; and supporting small-scale infrastructure projects to support the development of regional tourism offer/product.

The Project team implements the action under the supervision of the RCC Secretariat's Programme Department (Competitiveness). The coordination that guides the activities, verifies and endorses the results is achieved through the RCC Tourism Expert Group (TEG), comprised of relevant national stakeholders from the six governments, the private sector and the civil society active in tourism development and promotion. The national TEG Coordinators are also responsible for coordination of relevant stakeholders from tourism or other relevant fields within their own economies.

Product Development – Adventure

During 2018 and 2019 RCC Triple P Tourism project completed stage one of the product development that included identification and selection of the themes for the regional routes, development of key framework approach for each route/product and initial concept development for the two new themes. Through the consultative process executed with Tourism Expert Group (TEG) the following regional adventure tourism offer has been selected for project support:

Via Dinarica and spin off programmes: Via Dinarica, as the regional mega trail, already enjoys recognition in international adventure travel market, and serves as a growth generator in remote areas of the region offering several tourism products. Via Dinarica backbone group of products includes hiking and mountain biking, and the current effort seeks to expand the adventure offer with new products, ski touring being one of them.

Via Dinarica - Ski touring: The WB region is perfectly suited for ski touring. It is one of the best ways to explore the mountains of the region especially in the winter period. You can get into areas considered inaccessible to ordinary skiers that offer completely different mountain experience. "Ski Touring is the biggest niche market worldwide in skiing at present"- stated by Ski Club of Great Britain.

Via Dinarica trails are still underused during the winter, thus there is a need to develop and promote the winter activities as part of this trail offers. Currently available winter outdoor activities throughout Via Dinarica are the snowshoeing and alpine skiing. The ski touring is still underused and underutilised as a product. Still, ski touring is potentially a most profitable winter activity which can be offered to potential foreign tours, along the line of free ride skiing, ice climbing and alpinism. A variety of ski touring programmes to suit all abilities and ambitions, from one-day to multi-day tours, have been developed by RCC external experts, including initial selection of international operators and media. Selected programmes are to be implemented via the commissioned FAM tours for this 2020 winter season.
