INTRODUCTION

These Guidelines are intended to be used by those applying for grants under the 1th Call for Proposals for the Work Programme for Grants of the Regional Cooperation Council, of Triple-P Tourism in SEE: Promotion, Policy, and Pilots (RCC GWP Triple-P) Project for the years 2018–2020. The guidelines provide the essential information necessary for the preparation and submitting of **grant concept notes (first stage) and full applications (second stage)** for the 1th Call for Proposals in the **award year 2018**.

While the overarching aim of the RCC's Grant Work Programme Triple P 2018-2020 is to contribute to economic growth in South East Europe by supporting increase in employment and sustainability of SEE economies through regional tourism development, the 2018 Call for Proposals is focused on thematic priority: Pilot Projects, deriving from the Triple-P Tourism in SEE: Promotion, Policy, and Pilots Project.

Priority - Pilot Projects

Objective: To support creation of preconditions and enabling environment for tourism product development and support mitigating sector challenges on micro-localities.

In order to achieve best possible results in promotion of the joint regional tourism products, it has been determined of substantial importance to improve the tourism infrastructure and activities on the local level throughout the region, namely on the localities along the routes that will be part of the joint regional products. Local governments, small businesses and NGOs have an important role in contributing to the growth of tourism sector, and therefore need to increase their capacity in order to provide the services that would fit the needs of the tourism industry. The types of services could include information points on localities, local infrastructure network and utilities, health, security, etc. This area of intervention will engage the local community (local governments, small business and civil sector) along the routes of the joint regional tourism products and support them in capacity building in tourism destination management. In cases where specific local community is unable to develop the sufficient capacity, support will be given to multiple local governments clustering into destination management organisations. While Priority 1 and 2 will be focused on development and promotion of regional tourism products and improvement of the policies pertaining to SEE's tourism, respectively, Priority 3 will create preconditions and enabling environment for tourism product development and mitigating sector challenges on micro-localities. Namely, it will directly support small-scale projects in the local community(ies) on the tourism routes through the region, aiming to improve tourist infrastructure and services, ensure growth of tourist operations both within public and private sector, and ultimately create new jobs and income generation opportunities in target localities. Key beneficiaries of the assistance under this activity will be local authorities, local and regional tourism development agencies, civil sector, NGOs, small businesses, and tourism clusters in selected areas. The financial assistance to beneficiaries will be provided based on open and competitive selection processes and selection criteria. From the viewpoint of the action's internal coherence, this activity will, through particular approach through tourism, further reinforce implementation of local strategies from the viewpoint of economic development and competitiveness.

The proposed actions are to be implemented in Albania, Bosnia and Herzegovina, Kosovo^{*}, Montenegro, Serbia and The Former Yugoslav Republic of Macedonia.

The Call for Proposals is implemented by the RCC Secretariat, responsible for the overall coordination of the Programme as well as for all contract and payment issues, acting as the Contracting Authority.

This is a restricted Call for Proposals, two-tier process where in first instance applicants submit their Concept Notes accompanied with the Declaration and the registration related documentation for eligibility check reasons ([here](#)). The pre-selected applicants will be invited to submit a Full Application Form. The applicants submitting the Full Application Form will undergo a detailed eligibility check, based on the supporting documents submitted ([here](#)) and the following criteria.

The eligibility criteria apply to all of the following:

- Eligibility of the applicants ([here](#));
- Eligibility of actions ([here](#));
- Eligibility of costs ([here](#)).

1. OBJECTIVE AND PRIORITIES OF THE CALL FOR PROPOSALS

1.1. Objective of the Call for Proposals (CfP)

The specific objective of the CfP is to achieve the objectives/results stipulated by the Triple P Tourism in SEE: Promotion, Policy, and Pilots project.

Generally, the CfP aims to contribute to the economic growth in SEE with the contribution of tourism industry to the region's GDP, exports, and employment. More specifically, the CfP aims to increase employment and sustainability of the regional tourism through development of value added regional tourism products and their international promotion towards increased number of tourist visits and their spending. Thus created increase in business activity is to lead to increase in employment along the developed regional tourism routes.

Specifically, objectives of the published CfP respond to the initial stage in product development under the identified priority themes (more information below under 1.2) and as such seek to identify and support actions that will provide key inputs on the product status, information regarding the opportunities and specific needs and secure initial planning for full blown product development and promotion to follow. In addition, where the product development has already made certain progress (i.e. Via Dinarica and related programmes) the 1st CfP will also seek to support actions that develop and provide solutions to the needs identified such as regional cooperation, training needs and targeted promotional efforts.

1.2. Priorities of the Programme

These Guidelines for Applicants relate to the 1th Call for Proposals under the third priority of the RCC Triple-P Tourism in SEE: Promotion, Policy, and Pilots Grants Work Programme, and Conclusions from the 6th and 7th meeting of the SEE Investment Committee's Tourism Expert Group, held on 28th November 2016 and 27th June 2018 respectively.

The confirmed priority areas of intervention, as per above conclusions, are:

Cultural tourism, and in particular the **themes** of

- a. the Crossroads of Civilizations as regional identity – fortifications to be the first product archipelago to introduce the identity
- b. Archaeological sites from Roman period
- c. Art and design of post-World War II monuments – establishing the new product regional route

The remaining 70% (in this case in the amount of EUR 18,900) of the funds should be foreseen for operational activities of the project.

7. EVALUATING AND SELECTING PROJECT PROPOSALS

The first step in the evaluation procedure is the administrative check, which examines that all of the required documents were submitted on time and have been completed according to the Guidelines.

The Concept Notes (CN) and Full Applications (FA) will be considered and evaluated by the Evaluation Committee.

Each member of the Evaluation Committee undertakes individual evaluation procedure and all members sign the summary evaluation table for each CN/FA. Evaluation is conducted using a scoring system, whereby the scoring criteria are divided into sections and subsections. Ranking the CN/FA is carried out in a manner that the first ranked CN/FA is the one with the highest score, followed by the CN/FA with the next lowest score up until the CN/FA with lowest scores.

Only CN/FA with a score of 30 or more points will be taken into further consideration, as the proposals below this threshold have not met the set standards, thus questioning the efficiency of their ability for implementation.

The decision on grant approval is based on the total number of projects that can be financed within the available funds. These limits are set in order to define minimum quality of CN/FA and ensure the best value for money. CN/FA with the highest scores will have priority in grant disbursement.
