Housing legalisation

Locating the housing units

Preparing urban plans (precondition)

Initiating the legalisation procedure

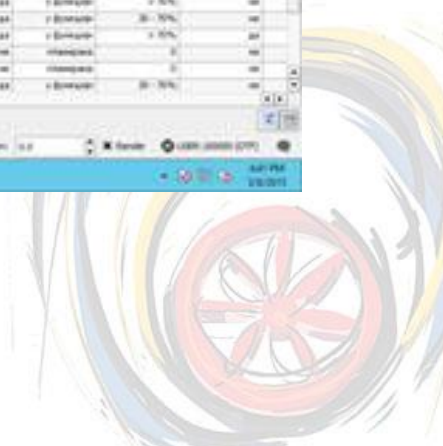

Providing auxiliary assistance to households

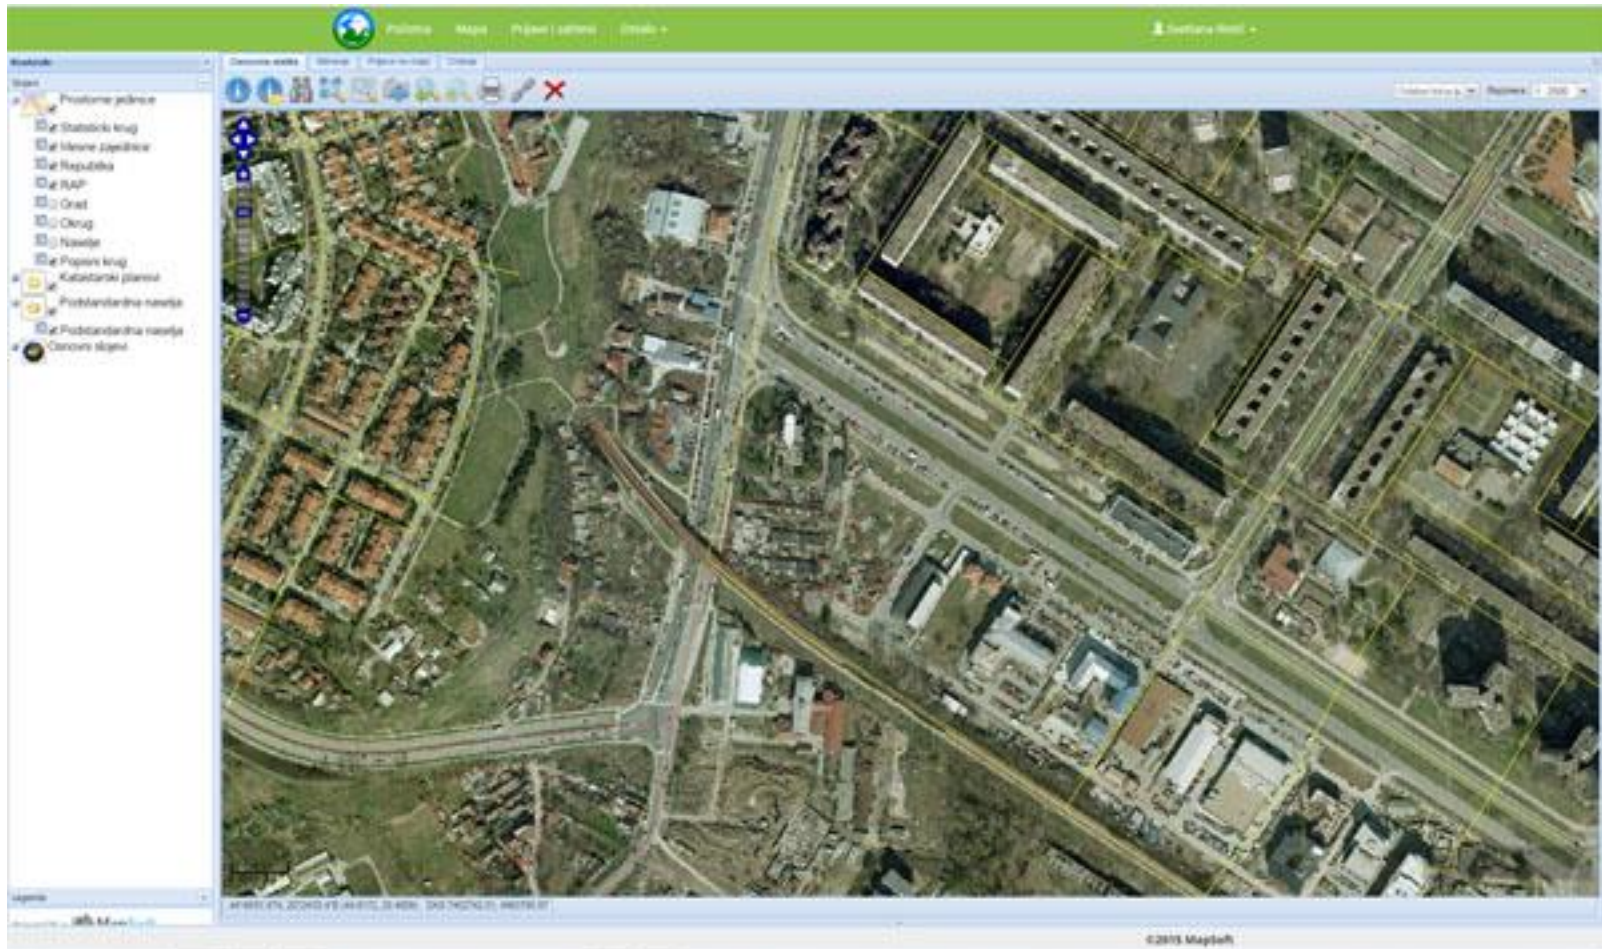

Completing the legalisation – registration

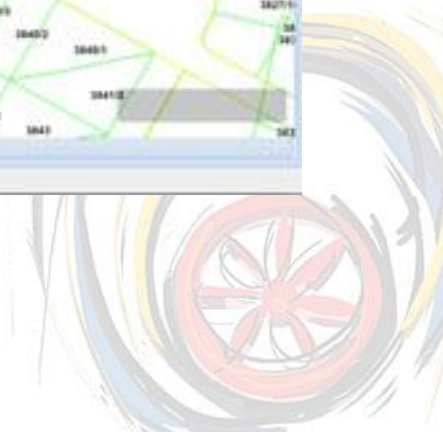

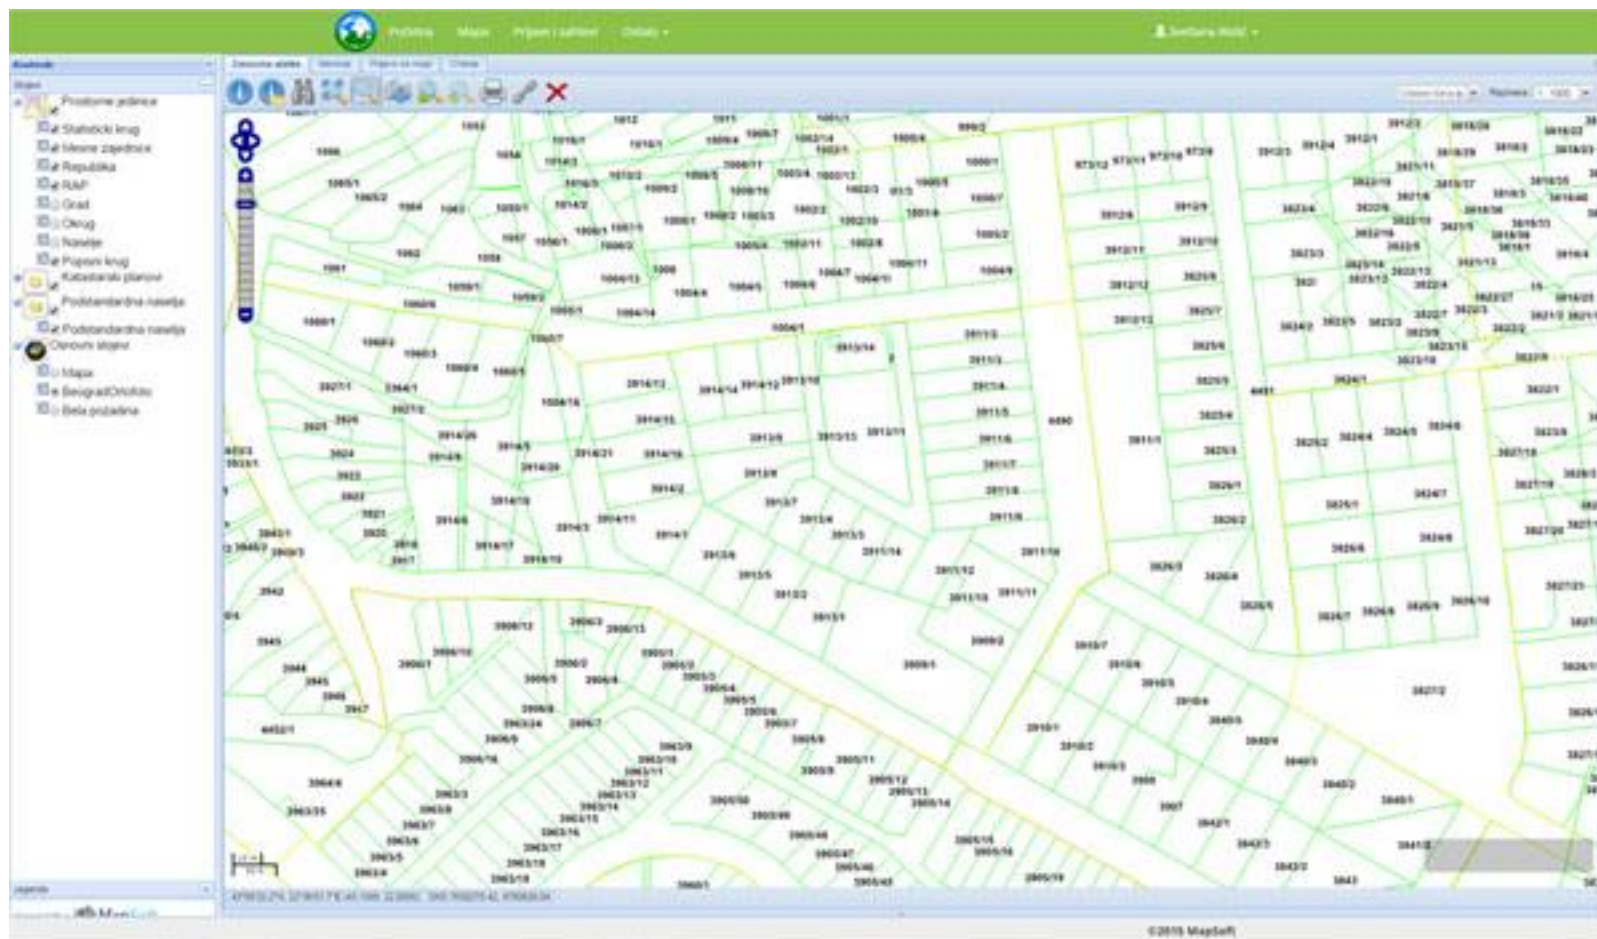

Locating the housing units

- Housing mapping methodology
- Based on the example of Serbia:
 - Geographic information system (IPA)
- Using the existing data and officialising the known facts (primarily from local level)
- Basis for legalisation and urban development

Process of mapping

1. List all settlements to be mapped
2. Obtain orto-photo (Cadaster)
3. Draw borders of each settlement
4. Provide information for each settlement
5. Combine data for each settlement with
 - a) Census data
 - b) Cadaster data

Important issues

- Definition of “Substandard Roma Settlement”
- Engaging local actors
 - (municipalities, Roma civil society, utility companies, other local institutions)
- Gathering as much information possible, including best estimates
- Establishing, maintaining, updating, analysing and using the data
 - By economy and regionally
- Using the new census cycle for the full mapping

Pilot municipalities

- Albania:
- Bosnia and Herzegovina:
- Kosovo*:
- Montenegro:
- North Macedonia:
- Serbia: to be fully updated - need to harmonise with the regional methodology

Full methodology

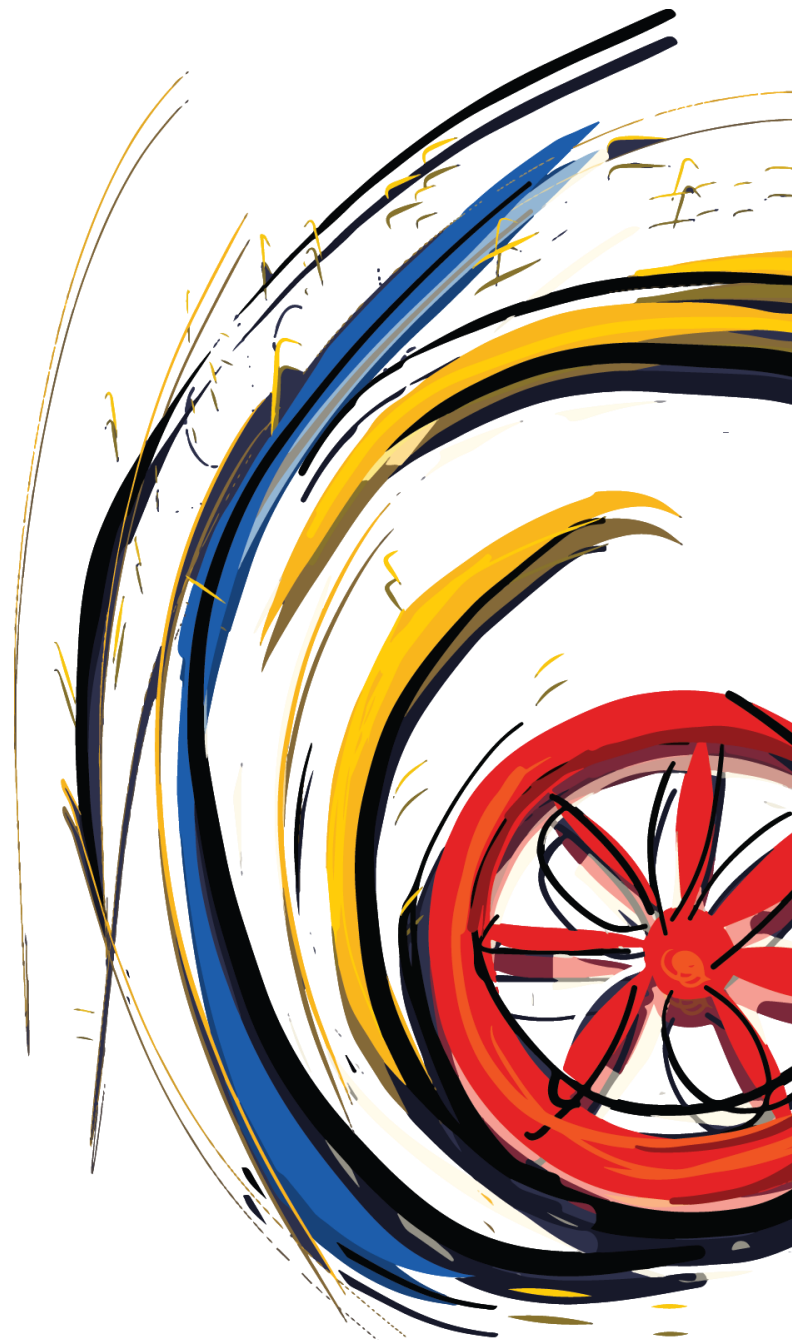

- Discussed at the regional conference
 - Questionnaire reviewed in detail
 - Inputs included in the final draft
-
- Pilot to be implemented during the first half of 2020!

Employment

Employment rate

Undeclared work

- National average employment rate is 55%

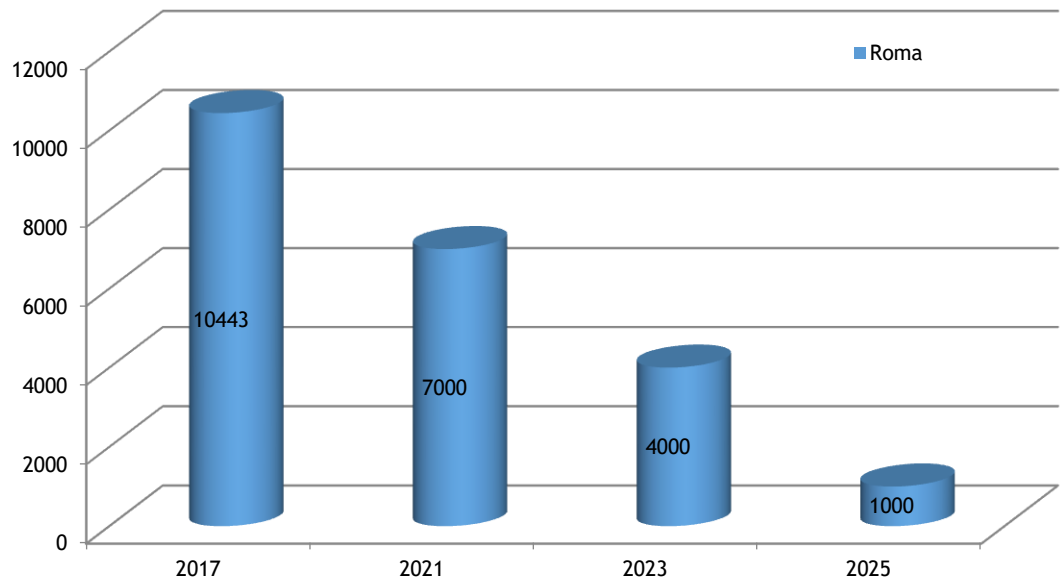

Employment

- Gap in the employment rate is **-34%**; undeclared employment rate is **54%**
- Measures envisaged with the strategy (operational objective 7):
 - **affirmative financial and non-financial support**
 - specific self-employment and entrepreneurship subsidies
 - **incentives for cooperatives and regulation of social entrepreneurship**
 - **forbidding depositing recyclable waste by law**
 - **local waste collection plans integrating individual waste collectors**
 - **subsidising individual waste collectors for equipment for work**
- Roadmap: development of a comprehensive programme for transformation of undeclared work
 - Agreed with the National Council of the Roma National Minority to take the lead, and with the NRCP
 - Ongoing preparation of a first draft concept and terms of reference for technical support

Housing

Number of illegal objects (estimate)

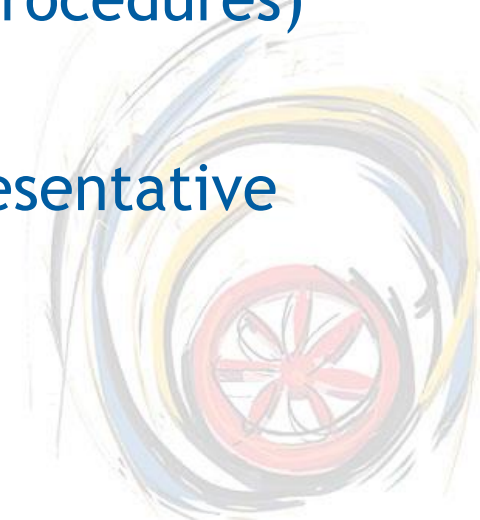

- NO DATA
- **594** substandard Roma settlements with **20,477** objects and **48,223** persons
- Presumed 50% of the substandard settlements are illegal

Housing

- Key obstacles:
 - No data on illegal Roma housing units
 - No data on Roma housing units that can be legalised
 - Lack of urban plans covering Roma settlements
 - Slow procedure not prioritising Roma housing
 - Lack of support to Roma (for auxiliary procedures)
- IPA funding to tackle the issues
 - Presentation by the EU Delegation representative

Employment

Undeclared work

Employment rate

- National average employment rate is 49%

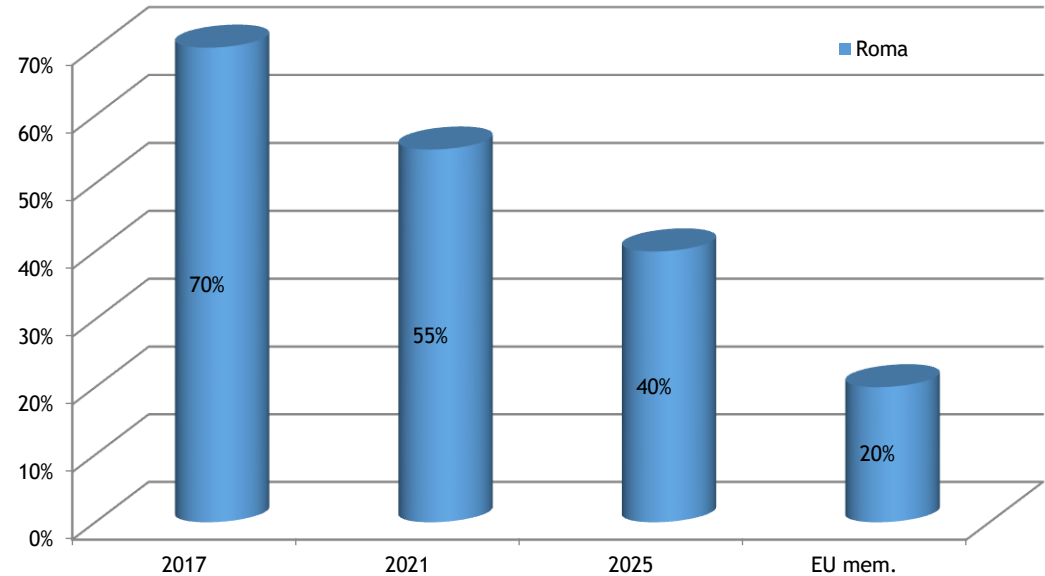

Employment

- Gap in the employment rate is **-27%**; undeclared employment rate is **24%**
- Measures envisaged with the strategy:
 - Measure 2.4. Transforming informal economy into formal in volume that can be controlled and is acceptable for the free market economy:
 - Study on the informal economy among Roma;
 - Legal provision and/or active measure to benefit Roma legalising their business;
 - Identifying and implementing successful models of transformation of undeclared work;
 - Creating possibilities for registering activities by paying minimum taxes or lump taxes;
 - Gradual period in registering businesses (to deal with the financial burdens and ensure social protection);
 - Financial stimulations for Roma, as: gradual payments, delay of payment of liabilities for a certain period,
 - loans according to “state-fixed” rates; subventions (grants) for formalising the business.
- Roadmap: development of a comprehensive programme for transformation of undeclared work
 - Agreement with the Ministry of Labour and Social Policy to kick off the initiative (concept paper and terms of reference being prepared)

Housing

Illegal housing units

- NO DATA
- **70%** is according to the Strategy (no absolute numbers)

Housing

- Key obstacles:
 - No data on illegal Roma housing units
 - No data on Roma housing units that can be legalised
 - Lack of urban plans covering Roma settlements
 - Slow procedure not prioritising Roma housing
 - Lack of support to Roma (for auxiliary procedures)
- Housing tackled with significant IPA funding
- Roadmap interventions:
 - Housing mapping to be piloted in 2 municipalities
 - Objects suitable for social housing after adjustment to be identified at local level (Romacted cooperation)

Roadmap 2019-2021 Kosovo*

Roma Integration 2020 Task Force IV Meeting
Belgrade, 12-13 December 2019

*This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

OPEN SOCIETY
FOUNDATIONS

Roadmap Kosovo* HOUSING

Goal: The NRIS of Kosovo* sets the target to redact illegal dwelling for 60% until 2021, 40% by 2025, 20% until accession

Challenge: Working with the data available from the NRIS, the presumption is that there are 6,000 Roma families in Kosovo*, 80% of which do not have ownership over the dwelling where they live and thus face evictions.

*This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

Roadmap Kosovo* HOUSING

- **Housing recommendations:**

1. Collecting housing information and ensuring possibility for ethnic disaggregation of the data.
2. Housing legalization for Roma and property rights to be pursued by adequate public measures and services.
3. Municipal housing programmes and budgets to be ensured

- **Implementation actions:**

1.1 The Ministry of Environment and Spatial Planning has developed a data base for data collection and there are already data on Roma existing

Challenge: no trained staff to use/update the system, municipalities are not providing data

2.1 A new Law on Social Housing is currently being drafted, and there is a need for technical and expert assistance in the process;

Challenge: The Law doesn't have specific measures for Roma

3.1 Piloting the Regional Housing Methodology + staff training for the data base

The Roma Integration action will provide technical assistance and training to the NRCP to develop a funding proposal for assistance and access to housing legalization and social housing for the families whose dwellings cannot be legalized.

Roadmap Kosovo* EMPLOYMENT

1. Recommendation: Formalizing undeclared work (focus on secondary raw material, waste) collectors

Target: The targets for the reduction of undeclared work may be set at 57% in 2021, 44% in 2025 and at most 30% by Kosovo*'s EU accession

Challenge: The undeclared work among Roma is almost 70%, while among non-Roma near 50% and the Operational Conclusions from the Roma Seminar held by the Government of Kosovo* and the European Union from 21 February 2018 recognize the great challenge of “black market economy”.

3. Recommendation: More effective active labor market measures

Target: Reduced unemployment for 57% by 2021, 44% by 2025, 30% EU accession

Challenge: low participation on the labour market, especially among youth and females, and a high unemployment rate (30.5%). Around two thirds of the working-age active population is inactive (57.2%). Youth unemployment rate (15-24 years) is over 52.7%.

Only 13% employment among Roma, 21% among non-Roma

2. Recommendation: Public employment -seasonal work vs social welfare

Challenge: Recommendations for changes in the law and regulations are set, authorities remain silent

*This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

Roadmap Bosnia and Herzegovina

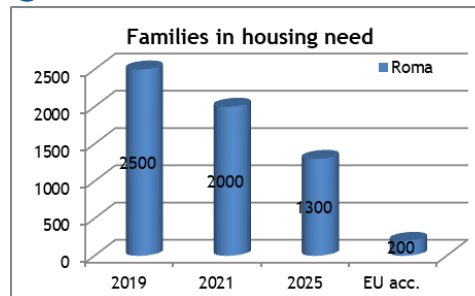

EMPLOYMENT AND HOUSING

1. Target: Increase Roma employment rate to 34% at the time of accession to the European Union (EU).

The employment rate of Roma in Bosnia and Herzegovina is 11%.

2. Target: Lowering the rate of undeclared work from 69% to 38% at the time of accession to the European Union.

3. Up to date the Government of Bosnia and Herzegovina supported construction of more than 1,000 housing provided to Roma families, **while remaining 2,500 Roma families stay in need of housing.**

Roadmap Bosnia and Hercegovina

- Modification of the Roadmap
- The Ministry of Human Rights and Refugees has decided to initiate the implementation of the educational activities from the Action Plan on “Strengthening Co-operation through Regional Initiatives with Roma language departments in the Region”.
 - Roadmaps on standardization of the Roma language;
 - Possibility of introducing Roma language Department in BiH;
 - Possibility of introducing the Roma language in schools as an optional subject.

The Roma Integration action will provide technical assistance expertise.
