## Substandard Roma Settlement (SRS) General Information

---

\* This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

**Substandard Roma Settlement Number**

**Substandard Roma Settlement Name**

**Location of the Substandard Roma Settlement**

- Albania  Kosovo\*  Republic of North Macedonia  
 Bosnia and Herzegovina  Montenegro  Serbia

**Municipality name**

**Municipality unique code number**

**Settlement/district name**

**Settlement/district code**

**Cadastral municipality (CM) name**

**National cadastral zoning reference**

**Census circle number(s)**

**Year of Roma settlement establishment**

  
 exact  best estimate

**Information source**

**Description of the Roma settlement border (use street names and other reference spatial objects that limit that settlement, coordinates)**

**Position of the substandard Roma settlement relative to the nearest formal settlement**

- Within a formal settlement  
 On the outskirts of a formal settlement  
 Far from a formal settlement

**Total number of inhabitants**

  
 exact  best estimate

**Information source**

**Total number of Roma inhabitants**

  
 exact  best estimate

**Information source**

**Number of objects for housing**

exact  best estimate

**Information source**

**Number of housing units**

exact  best estimate

**Information source**

**Number of objects constructed from poor materials  
unsuitable for construction (not durable and unsafe)**

exact  best estimate

**Information source**

## Communal infrastructure in the Substandard Roma Settlement

**Is there a water supply system?**

Yes  No

**Status of the water supply system in the settlement (check all relevant)**

planned

in function

prohibited for use

under construction

out of function

**Number of housing units connected to water supply**

exact  best estimate

**Information source**

**Need for construction of water supply system (meters)**

exact  best estimate

**Information source**

Is there a sewage system?  Yes  No

Status of the sewage system in the settlement (check all relevant)

- planned  in function  prohibited for use  
 under construction  out of function

Number of housing units connected to sewage

exact  best estimate

Information source

Need for construction of sewage system (meters)

exact  best estimate

Information source

Is there a electricity supply system?  Yes  No

Status of the electricity system in the settlement (check all relevant)

- planned  in function  prohibited for use  
 under construction  out of function

Number of housing units connected to electricity

exact  best estimate

Information source

Need for construction of electricity system (meters)

exact  best estimate

Information source

Is there access to the settlement via traffic road?  Yes  No

Is there a traffic road network in the settlement?  Yes  No

Status of the road network in the settlement (check all relevant)

- planned  in function  prohibited for use  
 under construction  out of function

Current surface pavement material (check all relevant)

- asphalted road  macadam  
 dirt road  concrete road

Need for construction of road network (meters)

exact  best estimate

Information source

Is there a public lighting network in the settlement?  Yes  No

Status of the public lighting network in the settlement (check all relevant)

- planned  under construction  in function

out of function

prohibited for use

**Need for setting up public lighting (meters)**

exact  best estimate

**Information source**

**Number of collective garbage containers**

exact  best estimate

**Information source**

**Number of needed collective garbage containers**

exact  best estimate

**Information source**

**Frequency of public utility vehicles collecting garbage from containers (times per week)**

exact  best estimate

**Information source**

## Other safety features

**Is there any unmanaged dumping area in or near the settlement?**

Yes  No

**Is there any significant air polluting source in or near the settlement?**

Yes  No

**Is there any significant soil polluting source in or near the settlement?**

Yes  No

**Is there any significant water polluting source in or near the settlement?**

Yes  No

**Percentage of households in the settlement using various heating sources:**

oil

gas

wood/coal

electricity

no heating

exact  best estimate

**Information source**

**How frequently there is flood in the settlement?**

never  occasionally  every year

**Information source**

**Is there a flood relieve mechanism for the settlement and its inhabitants?**

Yes  No

**How frequently there is landslide of the settlement?**

never  occasionally  every year

**Information source**

**Is there a landslide relieve mechanism for the settlement and its inhabitants?**

Yes  No

**How frequently there is fire in the settlement?**

**Information source**

never  occasionally  every year

Is there a fire relieve mechanism for the settlement and its inhabitants?  Yes  No

## Urban/spatial planning

How much of the territory of the settlement is covered by an urban/spatial plan?

whole territory  part of the territory  none of the territory

If there is coverage by an urban/spatial plan, please select the type of the plan existing:

spatial plan of the municipality  general regulation plan  detailed regulation plan

What form of implementation of the urban/spatial planning document is foreseen?

direct implementation  need for lower level plan development

If there are urban plans, what is the purpose of the land?

Housing  Purpose compatible with housing  Other purpose (not residential)

## Legal status of objects

Ownership of the land (select all that apply)

Public (central)  Public (municipal)  Private (not of the inhabitants)  
 Private (of the inhabitants)  Unresolved ownership

Insert the number of housing units currently fitting in the legalisation category of:

Illegal, without possibility for legalisation  Illegal, not in procedure for legalisation  
 Illegal, in procedure for legalisation  Illegal, with negative legalisation decision  
 Legalised (decision) not registered  Fully legalised (decision and registration)  
 Legal (since building), not registered  Legal (since building) and registered

exact  best estimate
