Questions:

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

The discussion should focus on promising practices and sustainable models for performing Roma responsive budgeting both at the local and central level of governance. The panel should elaborate on the administrative and legislative processes that are already in place and/or are required in order to ensure that programming of public and donor funds is performed as prescribed with the Roma responsive budgeting guidelines. Additionally, the discussion should provide for a common understanding among policy makers on the necessary steps for institutional coordination while preparing and implementing mainstream and targeted measures for the benefit of Roma integration.

Q&A, DISCUSSION

Moderator: Aleksandra Bojadjijva, Policy Expert, Roma Integration Action Team

12³⁰ - LUNCH
