## **I. BACKGROUND**

### **Purpose**

The purpose of engaging experts relevant to the monitoring and reporting on the annual implementation of Roma integration public policies of the Roma Integration 2020 participating economies is to ensure and facilitate the monitoring and reporting process within the project. The experts are expected to directly support the relevant ministries in the respective participating economies, assisting them with **filling in the Reporting Template on the annual implementation of Roma integration public policy of the participating economies for 2017**, as adopted at the First Task Force Meeting of the Roma Integration 2020 on 9 November 2016 (see Annex 1). It is also anticipated that the experts will be assisting with the identification of needed information and data, advising on relevant information and data that can be used in different parts of the reporting template, including required information on indicators, baseline, milestone and output data, tools and methods to produce relevant disaggregated data, information and data on results, impact, achievements and budget, particularly in case of mainstream measures, etc.

The final output of the service of the engaged experts shall be a dully filled in report including an assessment of availability of information and data to fill in the specific parts of the template, recommendations on how to ensure relevant information and data, including possible sources and methods. The final report of the experts may also include recommendations on priorities for implementation of the Roma targeting policies in the forthcoming period (2018 and/or beyond) as relevant.

### **Background Information**

Roma Integration 2020 is a project implemented in the framework of the Regional Cooperation Council (RCC), in line with the EU Framework for National Roma Integration Strategies and the EU accession process. While these processes established the basis for public policies, institutional arrangements and dialogue on Roma issues, impact on Roma remains limited. Roma still face social exclusion and discrimination leading to lack of education, chronic unemployment, limited access to healthcare, rudimental housing, limited access to essential services and widespread poverty. The reason is found in the isolation of the issues of Roma from mainstream public policies, budgeting, public service institutions and administration, and it is exactly this reason that is addressed by the Roma Integration 2020 project.

The objective of Roma Integration 2020 is to contribute to reducing the socio-economic gap between the Roma and non-Roma population in the Western Balkans and Turkey and to strengthen institutional obligations of governments to incorporate and deliver specific Roma integration goals in mainstream policy developments. In line with this, Roma Integration 2020 aims to assist national governments to integrate Roma specific policy measures into: (1) mainstream socioeconomic policies and public service delivery; (2) national budget planning and service delivery processes.

Roma Integration 2020 project activities include:

- direct assistance and technical support to governments to set up institutional arrangements to coordinate, consult, implement and report on Roma issues;
- public dialogue forums on Roma issues;

- policy clinics offering continuous support, specific consultative meetings and trainings and written policy recommendations on policy formulation, prioritising, mainstreaming, budgeting and monitoring;
- regional policy workshops to boost the aforementioned activities with exchange of promising practices and to ensure regional coordination in line with the EU accession process;
- annual assistance to reporting and reviewing of reports in line with the EU reporting;
- participation at EU organised meetings and processes related to Roma issues;
- streamlining Roma issues with the core work of RCC;
- visibility and coordination activities, including high level and task force meetings, as well as regular publishing of bulletins, maintaining a website and publication of a study based on the project achievements.

The Roma Integration 2020 participants are the IPA II beneficiaries: Albania, Bosnia and Herzegovina, Kosovo\*, Montenegro, Serbia, The Former Yugoslav Republic of Macedonia and Turkey.

Experts recruited through this open call are designated to provide their services within the implementation of first and third sets of activities as listed above, namely direct support to governments in reporting on Roma issues and specific capacity building on reporting on Roma policies as part of the policy clinics. Further details are provided below. Their assignment shall be guided by the Roma Integration 2020 Action Team and shall focus on reporting on the Roma integration public policies for the year 2017.

## **II. DESCRIPTION OF RESPONSIBILITIES**

### **Objectives and scope of the assignment**

The purpose of engaging experts is to work with the Roma Integration 2020 Action Team, assisting in the provision of support to participating economies to report on the implementation of Roma integration public policies, including measures from all priority areas envisaged by their Strategies, both targeted and mainstreamed, and with specific focus on output and impact statistical data and budget reporting.

The objective of the expert service is to ensure and facilitate the monitoring and reporting by the participating economies within the Roma Integration 2020 project.

The experts are expected to directly support the relevant ministries in the respective participating economies, assisting them with filling in the Reporting Template on the annual implementation of Roma integration public policy for 2017. The Reporting Template has been adopted by the Task Force of the Roma Integration 2020, consisted of National Roma Contact Points from all participating economies, on 9 November 2016 (see Annex 1). The template requires information on all the measures within each priority area envisaged by the participating economies' Strategies and/or Action Plans. The information should include description of the measures and their implementation, as well as quantitative data on beneficiaries (disaggregated by ethnicity and gender) and on budget. The template also requires economies to provide information on the impact of their policies according to the agreed impact indicators, as well as information on the planned and spent budget for the implementation of the Roma integration public policy.

The Roma Integration 2020 Action Team has customised the reporting templates to each participating economies' adopted Strategies and/or Action Plans on Roma integration.

The experts are expected to review the customised reporting template for the respective economy, assist relevant public officials responsible for all the priority areas envisaged in the economies' Strategies/Action Plans to provide and adequately formulate the required information on all envisaged measures, including data on beneficiaries and budget. They are also expected to assist public officials to identify available quantitative data, advise on their utilisation for the reporting purpose and assist in providing the best possible quantitative data within the report. The experts may also recommend improvements in the monitoring and reporting system as relevant for the upcoming years.

The final output of the service of the engaged experts shall be a dully filled in report including an assessment of availability of information and data to fill in specific parts of the template, recommendations on how to ensure the availability of the relevant information and data, and the possible sources and methods.

This should be complemented with an in-depth analysis of the process of monitoring and reporting on progress of policies undertaken with respect to the beneficiaries targeted and the defined goals/milestones/benchmarks (progress per specific measures, how it was achieved, where the progress was not achieved and why not, where are the gaps and recommendations how to adjust and revise the relevant policies).

The final report of the experts may also include recommendations on priorities for implementation of the Roma targeting policies in the forthcoming period (2018 and/or beyond) as relevant. Analysis should also include information on the challenges faced as relevant to the annual implementation; gaps identified to be addressed in the follow-up and related recommendations as relevant.

## **Tasks**

Experts will be engaged in the following activities:

- Directly supporting the relevant public officials responsible for the priority areas of the Strategy/Action Plan in the respective participating economies, assisting them with filling in the Reporting Template, including the review of the customised template.
- Assisting the respective economies with the identification of information and data relevant for filling in the template, including quantitative data on baseline, milestone, output, impact and budget, as well as advising on tools and methods that can be used to produce relevant data.
- Producing a final report on the consultancy assignment, including an in-depth analysis of the monitoring and reporting process within the respective economy, assessment of availability of information and data, recommendations for improvement of the monitoring and reporting process, and if relevant, recommendations for priorities on the implementation, monitoring and budgeting of the Roma Strategy/Action Plan for the following period.

## **Deliverables**

During the course of the assignment, experts are expected to produce the following deliverables:

- Filled in reporting template for the respective economy jointly with the public officials by 31 May 2018;
- Consultancy assignment report as described above by 31 May 2018.

## Lines of Communication and Reporting

The experts will submit all reports and timesheets to the Roma Integration 2020 Action Team for review and approval of deliverables. The experts will work closely with the Action Team, which shall provide guidance to efficiently conduct the work and approve deliverables. The Action Team shall also ensure the required communication of the experts with the National Roma Contact Points.

## Timeframe

The Roma Integration 2020 Action Team will engage one expert per participating economy in the period from 02 April to 31 May 2018, to allow the preparatory work starting in early April as well as the process of completion of the reporting template by 31 May 2018.
