I. BACKGROUND

Purpose

The purpose of the consultancy is to support the implementation of the Roadmap for ending statelessness of Roma in Albania.

Following the endorsement of the [Poznan Declaration](#) and the Conclusions of the first [Ministerial meeting](#) organised by the Regional Cooperation Council in 2020 to assess progress in achieving the Poznan Declaration objectives, the Western Balkans Ministers responsible for Roma integration agree to strengthen ongoing work on Roma integration in general, and in particular:

on civil registration (point 1.e) of the Poznan Declaration), the Ministers responsible for Roma Integration/Heads of Delegations welcomed the initiative to develop Roadmaps towards Ending Statelessness of Roma, outlining the specific actions to be undertaken in order to achieve full eradication of statelessness and mechanisms for its prevention. The Ministers/Heads of Delegations confirmed that Roadmaps towards Ending Statelessness of Roma will be adopted in the course of 2021 and recognised the role of the Regional Cooperation Council as a facilitator of this process, including in developing Roadmap proposals.

With the support of the Roma Integration action, the Roadmap for Albania was developed in 2020 based on a mapping of existing legal and policy frameworks to provide legal, policy and practice directions towards ending (risk of) statelessness of Roma in the Western Balkans.

In 2021 the document was welcomed by the government and after national consultations with the relevant ministries and national and international organisations, it is ready to be implemented.

The defining roadmap focuses on economy-specific actions to achieve the targets that will give directions towards implementation of the concrete, economy-specific pledges submitted at the High-Level Segment on Statelessness in Geneva in October 2019.

To facilitate a unique process in each economy, the Roma Integration action is providing policy advice and technical support to the Governments in the Western Balkans in implementing effective Roma integration policies. This consultancy provides technical assistance to the government of Albania in order to attain the above-mentioned objectives.

Background Information

The Regional Cooperation Council's (RCC) Roma Integration Action Team implements the Roma Integration action. It is funded by the European Union and the Open Society Foundations. The action is in line with the EU Framework for National Roma Integration Strategies and the EU enlargement process.

The overall objective of the Roma Integration action is to contribute to reducing the socio-economic gap between the Roma¹ and non-Roma population in the Western Balkans and Turkey in the areas of employment and housing, as well as education, health and civil registration. Specifically, the action supports the governments in the region to increase the implementation rate and budgetary allocations for Roma integration policies, through:

- direct support and technical assistance to the governments to advance existing institutional and policy framework and mechanisms for Roma integration, including promotion of proper budgeting, monitoring and reporting;
- annual assistance to reporting and review of reports in line with the EU reporting;
- direct support and technical assistance to the governments for mainstreaming Roma integration into relevant sectoral policies and reforms, and implementation of effective measures, particularly in employment and housing;
- National Platforms on Roma integration issues;

¹ The term "Roma" within the action is used in line with the EU terminology, as an umbrella term which includes groups of people who have more or less similar cultural characteristics, such as Roma, Ashkali, Egyptians, Dom, Lom, Sinti, Travellers, Kalé, Gens du voyage, etc., whether sedentary or not.

- regional fact-finding analyses and informed regional discussions through conferences for exchange of knowledge and regional standard setting;
- participation and input at EU level processes related to Roma issues;
- mainstreaming Roma issues within the core work of RCC;
- media dissemination activities challenging negative narratives on Roma integration, as well as action's visibility activities;
- regular high level/task force discussions on Roma issues at regional level.

The consultant's assignment fits in the overall Roma Integration action and shall be guided by the Roma Integration Action Team.

II. DESCRIPTION OF RESPONSIBILITIES

Objectives and scope of the assignment

In accordance with the Roadmap for ending statelessness of Roma in Albania, key tasks of the assignment include:

- Obtain official and clear information on the current civil status of Roma and Egyptians in Albania;
- Provide direct assistance through legal counselling and preparing documents for the National Institute on Statistics (INSTAT) and the General Directorate for Civil Status to better identify and gather reliable statistics on Roma and Egyptians residing in Albania in the context of national census, in order to address the impact that lack of registration of legal residency has had to date on reliable statistics.

Through civil registration, individuals are granted formal legal status, which allows them to access essential services such as healthcare, education, and financial services. Vital statistics, which are produced by these systems, provide basic demographic and health data for governments that inform policy.

It is to be emphasised that there are no official data on the number of persons at risk of statelessness who are children in Albania.²

Also, there are no reliable official data regarding the total number of persons at risk of statelessness. The only available information is the number of persons who declared themselves as "unregistered" during the 2011 census, which is 7443.46.³ The term "unregistered" must be explained to those who will be interviewed during the census.

The consultant(s) should work directly with the National Roma Contact Point, INSTAT, General Directorate for Civil Status, UNHCR, civil society organisations and other stakeholders.

This consultancy should be a lead toward establishing and ensuring long-term sustainability in terms of resolving the legal status of persons who do not have the necessary documents through enabling better institutional coordination leading to more accurate statistics on Roma and Egyptians planned for the 2022 census.

Tasks:

- Assist INSTAT with legal advice and assistance in developing a database of people at risk of becoming stateless. The tasks will result in a statistical overview of the people in Albania who are at risk of becoming stateless.

³ <http://www.instat.gov.al/al/temat/censet/censet-e-popullsisë-dhe-banesave/>

- Assist INSTAT in clearly defining the categories of people at risk of statelessness, for which official data will be gathered after the census, and a new proposed policy recommendation for resolving the issues will be developed. The task should result in overcoming the challenges of mapping and identifying people at risk of statelessness in Albania.
- Create a manual or a guide to assist INSTAT in officially incorporating adequate terminology for people at risk of statelessness during the 2022 census. The task should result in reliable official data on the total number of Albanians at risk of statelessness.
- Provide training to the selected census interviewers so that they can differentiate the civil status categories according to Albanian and international law. The task will help interviewers in gathering accurate data.

Deliverables

During the course of the assignment, the consultant will produce the following deliverables:

1. Specified data collection system for the category of people at risk of statelessness.
2. Manual or a guide to assist INSTAT in officially incorporating adequate terminology for people at risk of statelessness during the 2022 census.
