The consultant should assist the National Roma Contact Point in preparing the 2018 Annual Report on the implementation of the Roma integration policy of the economy of assignment, using the [format](#) adopted by the Roma Integration Task Force. The task entails soliciting inputs from the relevant implementing institutions, the statistical offices and the central financial institution, analysing the inputs, soliciting additional information as needed, preparing the information for the report as required within the format, and compiling the report. Additionally, the consultant is required to assist the National Roma Contact Points to advance the monitoring and reporting mechanism by preparing the required materials to solicit inputs from the relevant implementing institutions.

Background Information

The Roma Integration action is implemented by the Regional Cooperation Council's (RCC) Roma Integration Action Team. It is funded by the European Union and the Open Society Foundations. The action is in line with the EU Framework for National Roma Integration Strategies and the EU accession process.

The overall objective of the Roma Integration action is to contribute to reducing the socio-economic gap between the Roma¹ and non-Roma population in the Western Balkans and Turkey in the areas of employment and housing, as well as education, health and civil registration. Specifically, the action supports the governments in the region to increase the implementation rate and budgetary allocations for Roma integration policies, through:

- direct support and technical assistance to the governments to advance existing institutional and policy mechanisms and policy framework for Roma integration, including promotion of proper budgeting, monitoring and reporting;
- annual assistance to reporting and review of reports in line with the EU reporting;
- direct support and technical assistance to the governments for mainstreaming Roma integration into relevant sectoral policies and reforms, and implementation of effective measures, particularly in employment and housing;
- National Platforms on Roma integration issues;
- regional fact-finding analyses and informed regional discussions through conferences for exchange of knowledge and regional standard setting;
- participation and input at EU level processes related to Roma issues;
- mainstreaming Roma issues within the core work of RCC;
- media dissemination activities challenging negative narratives on Roma integration, as well as action's visibility activities;
- regular high level/task force discussions on Roma issues at regional level.

The consultant's assignment shall be guided by the Roma Integration Action Team.

¹ The term "Roma" within the action is used in line with the EU terminology, as an umbrella term which includes groups of people who have more or less similar cultural characteristics, such as Roma, Ashkali, Egyptians, Dom, Lom, Sinti, Travellers, Kalé, Gens du voyage, etc., whether sedentary or not.

II. DESCRIPTION OF RESPONSIBILITIES

Objectives and scope of the assignment

The objective of the consultancy is to ensure that the government of the economy of assignment produces a comprehensive 2018 Annual Report on the implementation of the Roma integration policy in the economy and establishes or improves the monitoring system.

The 2018 Annual Report should be prepared according to the regionally agreed [format](#) adopted by the Roma Integration Task Force. It should follow the strategy/action plan for Roma integration, but may also include the measures envisaged within the Operational Conclusions and the Action Plan on Chapter 23 (as relevant). It should contain condensed information on the implementation of each planned measure, including information on the beneficiaries (disaggregated by ethnicity and sex) and on the planned and spent budget for each measure. The report should also provide an overview of the budget spent for the implementation of the Roma integration policy in 2019. Highly important part of the report is the assessment of the impact of Roma integration policy, for which statistical data disaggregated by ethnicity and sex should be provided according to the agreed indicators.

The process of preparing the report starts by the National Roma Contact Point soliciting inputs from the implementing institutions, the statistical office and the central financial institution (Ministry of Finance) on the implementation of the Roma integration policy, whereby the consultant assists in preparing the requests for input. The next step is the assessment of the inputs provided by the institutions in order to consolidate the information and prepare it for the report in the format needed (short, precise, focused, including statistics) and requiring further information as needed. The analysis also entails performing of operations on the received information if needed (for example, to calculate the budget spent for a measure in case the number of beneficiaries and the relative average cost of the service is provided). The final step is to compile the report. The consultants may work with the National Roma Contact Points and the relevant institutions in local languages. The final output of the process – the 2018 Annual Report must be submitted in English.

In addition, the consultant shall assist the National Roma Contact Point to set or advance the procedures for internal monitoring and reporting, in terms of preparing forms for different institutions, standardising the procedure of preparing the annual report, and working with the Roma Integration Action Team in proposing mechanism for improvement of the statistical and budgetary reporting. This task shall be defined more closely with the consultant, depending on the specific context in the economy of assignment.

The final output of the assignment, besides the 2018 Annual Report prepared by the government with the assistance of the consultant, is the assignment report that the consultant is required to submit to the Roma Integration Action Team. The assignment report should provide detailed information on the process of the consultancy, including all the relevant information on stakeholders, activities, time allocated, produced outputs and outcomes. The assignment report should also contain the consultant's opinions on various aspects of the process, identified challenges and bottlenecks and potential solutions and recommendations.

- Assist the National Roma Contact Point to establish/advance the internal monitoring and reporting mechanism. This particular task is dependent on the specific context in the economy, and may include preparing standard information request forms, schedule
