Youth policies at European level

• The youth policy of the Council of Europe aims at “…providing young people, i.e. girls and boys, young women and men, with equal opportunities and experience which enable them to develop knowledge, skills and competencies to play a full part in all aspects of society”. (Committee of Ministers Resolution CM/Res(2008)23 on the youth policy of the Council of Europe)

• Youth in Action is the Programme of the European Union which has been set up for young people. It aims to inspire a sense of active European citizenship, solidarity and tolerance among young Europeans and to involve them in shaping the Union's future.
Why Roma Youth Policies?

- Provide opportunities for Roma young people to develop competences in order to become active citizen;
- Recognize the work done by different Roma Youth NGO`s and structures in this area and involve the representatives from Roma Youth NGO`s to active participate in the creation and implementation of the policies (as a method to do it is that the policies should encourage local and national authorities to organize regular and systematic meeting with Roma Youth NGOs);

The basis of this policies should:

- Provide mechanisms of participation for non-organized Roma youth, for instance, by offering flexible and informal activities for their participation and influence in decision making;

- Ensure appropriate establishments (e.g. youth clubs, youth centres etc) providing a fix space in each neighbourhood for Roma young people to meet and to develop different educational activities – as a youth centre;

- The policies should promote also the idea of mobile youth work – the youth workers (social workers) should be encourage to leave their office and to go where the Roma young people are – in the neighbourhood;

- Avoid the creation of new Roma neighbourhoods and encourage the integration of the people from the existing ones by mixing the population;
